

## Press release

### Lexmark Professional Series inkjet AIOs offer five-year guarantee and twice the ink

**UK, February 18, 2008** – Responding to the demanding needs of small office and home office (SOHO) users and small and medium businesses (SMBs), Lexmark International, Inc. (NYSE: LXX) today introduced the Professional Series, its first inkjet all-in-one (AIO) line to include a five-year guarantee[1] and high-yield cartridges.

“Every day, SOHO consumers and SMBs face critical deadlines and demands for high quality work documents. To meet these challenges, they need robust, reliable and affordable solutions,” said Paul A. Rooke, Lexmark executive vice-president and president of its Consumer Printer Division. “Our new Professional Series delivers productivity tools such as wireless, integrated two-sided printing and higher capacity paper handling. What’s more, we also distribute these products with a five-year guarantee along with higher capacity ink cartridges.”

Lexmark’s five-year guarantee on the Professional Series includes lifetime support[2]. Customers can easily obtain this guarantee coverage by registering online with Lexmark[3].

“We are confident in the quality and durability of the Professional Series inkjet line,” said Rooke. “This offer is designed to deliver a top-class range of high-end consumer printers and to show our unrivalled commitment to our customers.”

Integrated two-sided printing and XL (high-yield) cartridges are two features within the Professional Series that help customers reduce their impact on the environment, as well as reduce their printing costs. The XL ink cartridges included in the Professional Series deliver twice the yield of Lexmark’s standard cartridges. To offer customers ink solutions that best fit their needs, both high-yield and standard-yield cartridges will be available for this series.

The Professional Series line features four inkjet AIOs, all with a five-year warranty and lifetime tech support, including:

- The **X5075**: an All-in-One Pro sheet fed Fax for £99.99[4], including 30 page ADF and handset
- The **X4875**: a wireless All-in-One priced at £149.99[4], featuring duplex functionality, Autoprint and 2.4” colour LCD screen
- The **X6575**: a wireless All-in-One priced at £169.99[4], with duplex functionality and two line text LCD

Leading the new Professional Series is the Lexmark **X9575** Wireless All-in-One at £229.99[4], offering business-class productivity with the freedom of wireless.

The Lexmark X9575 wireless AIO:

- Enables users to scan, fax and access media card slots over a wireless network[5]
- Features Ethernet connectivity for business users' networks
- Offers built-in automatic two-sided printing
- Features a large, 150-sheet input tray, plus optional second drawer
- Includes a 50-sheet automatic document feeder
- Offers print speeds of up to 33 pages per minute (ppm) black and 28 ppm colour[6]
- Features a 48-bit flatbed colour scanner to easily scan or copy documents and photos
- Offers pigmented inks that are highlighter, water and smudge resistant with evercolor™2 technology
- Includes photo capabilities with media card slots and PictBridge port, with optional six-colour printing
- Produces vibrant, borderless photo prints that can last up to 100 years on Lexmark's PerfectFinish™ paper[7]
- Includes Lexmark's Toolbar, making Web printing more efficient by eliminating unwanted content such as advertising or graphics from Web-based documents
- Is compatible with a PC and Mac

### **NOTES TO EDITORS**

#### **About Lexmark**

Lexmark International, Inc. (NYSE: L XK) provides businesses and consumers in more than 150 countries with a broad range of printing and imaging products, solutions and services that help them to be more productive. In 2007, Lexmark reported \$5.0 billion in revenue. Learn how Lexmark can help you get more done at [www.lexmark.co.uk](http://www.lexmark.co.uk).

Lexmark and Lexmark with diamond design, evercolor and PerfectFinish are trademarks of Lexmark International, Inc., registered in the U.S. and/or other countries. All other trademarks are the property of their respective owners.

All prices, features, specifications and capabilities are subject to change without notice.

[1] Five Year Guarantee: The Lexmark Limited Commercial Guarantee will be expanded from its standard duration to 5 (five) years from the date of purchase of the Lexmark Professional Line product. This 5 year guarantee will be only available in the country where the device was purchased. Lexmark reserves the right to require the original purchase receipt, showing the serial number, date of purchase and location of purchase. The Lexmark Limited Commercial Guarantee does not cover accidental damage, misuse, theft or loss. See Lexmark Complementary Guarantee Statement for details.

[2] Lifetime Support: Beyond the 5 year guarantee period, you will continue to have the possibility for technical support regarding your purchased Lexmark Professional Line product during the lifetime of this product at no extra costs in the country where you purchased this product. Lifetime Support is available only via the Priority Support Line and via the Lexmark Website. See Lexmark Complementary Guarantee Statement for details.

[3] Registration: To activate the special benefits, the customer must register his/her Lexmark Professional Line product with the following data (product model, serial number, date and place of purchase, customer details) either using the automated registration feature during printer installation, if available, or using the registration form available at his/her country Lexmark web site within 90 (ninety) calendar days after date of purchase.

[4] All prices are Recommended Retail Prices in £229.99 – actual prices may vary.

[5] Subject to the range and capability of your 802.11 b/g/n wireless network and access to electricity.

[6] Printing in draft mode and excludes time to first page feed. See [www.lexmark.co.uk](http://www.lexmark.co.uk) for details.

[7] Longevity claims are based on accelerated fade resistance testing of photos displayed indoors, under glass or in photo albums. Photos must be printed on Lexmark Premium Photo Paper using an evercolor ink system that includes a color cartridge and an optional evercolor photo cartridge. Actual resistance to fading will vary based upon factors such as light intensity and type, humidity, temperature, air quality, drying time, glass, matting, album materials, print media and image. Lexmark does not warrant longevity or archivability of prints.
